VU Meter is a freeware utility that displays the level of audio signals processed by your computer's sound card. It imitates the volume unit meter of an old stereo, displaying volume indicators on your desktop. VU Meter is an interesting application that acts like a virtual audio level meter. It imitates the volume unit meter of an old stereo, displaying volume indicators on your desktop. Displays the audio signal level The application is similar to a sidebar gadget, since its interface does not take much desktop space and you can move it around wherever you want to. It displays a real-time representation of the audio signal level for both the left and the right audio channels. Right-clicking anywhere on the main interface reveals a menu that enables you to allow the variable maximum value, as well as reset it to 0, 20 or 40. This comes in handy when listening to audio streams that were recorded at a lower value. Various customization and configuration possibilities By default, the meters are displayed in black and white, but you can fully customize their appearance via the 'Options' window. VU Meter enables you to change the color of every element for each meter, starting with the background and continuing with the pointing needle, the arc of the meter, major and minor lines or the displayed text. There are various other settings that you can configure. The meters can be displayed either horizontally (side by side) or vertically (on top of each other) and the response time (the duration of a full swing across the gauge) can be changed from the default value of 300 ms to just 150 ms. Optionally, you can instruct the application to stay on top of all the other opened windows, which enables you to overlay it on top of any audio processing program and monitor audio levels. Displays an old volume unit meter on your desktop VU Meter is designed with simplicity in mind, aiming to accurately display the level of audio signals processed by your computer's sound card. Its clean interface makes it very easy to use, while the customization options help it blend with the desktop theme or background. Old MacDonald's Farm Park welcomes young visitors for Storytime under the Palms KISSIMMEE — Old MacDonald's Farm Park is filled with many activities for kids, but one of the coolest events for young visitors occurs the first Saturday of each month. Storytime under the Palms, held at 9 a.m. each month, allows visitors ages 4-10 to enjoy a short story in the park, followed by an activity from such things as climbing, hiding and imagining to building and playing. Activities vary, but most times kids can sit in the park and look at the manatees in the Palms, listen to live music, catch a butterfly, read a book and play with the special supplies the park offers. "It's a great way to get the kids out to the park, and we love having kids in the Palms and helping them get into the groove of things," Old MacDonald's Farm Park board member Cindy Hunt said. "It's a favorite of ours. We make a point to have the kids here for that first Saturday in April every month." Storytime under the Palms is held at Old MacDonald's Farm Park, 6805 Forest Green Blvd. It is part of the Chick-fil-A Children's Day each year, and the park gets to enjoy a day filled with kids. The park welcomes visitors with live music from 9 a.m. to noon every Saturday, and there's always plenty of activities for kids of all ages, including game time, some of the park's smaller rides and even a carousel. "We have a full menu of things to do here," Hunt said.
