Patients with lung cancer often develop distressing symptoms and complications that impair their quality of life. Despite the availability of a wide array of pharmacologic and interventional treatments, advanced lung cancer remains a lethal disease.

Understanding the psychological, emotional, and physical needs of these patients and tailoring interventions to meet these needs is a challenge. This article describes a lung cancer clinical program that provides individualized comprehensive care to patients with advanced lung cancer and demonstrates the use of a systematic approach for guiding management. ePub List price: \$29.95 Our price: \$27.48 You save: \$1.57 (7%) In 1951, the poet W.H. Auden became the only English poet to be awarded the Nobel Prize in Literature. He was especially acclaimed for works written for the stage, most notably his plays *The Assembled Parties* and *The Age of Anxiety*, with its famous “Musée imaginaire” and its cast of sensitive and often angry characters. The bulk of his work, however, was written for the theater and the radio. In his book on Auden, Ian Bradley draws on the author's own writing and reports on interviews with family, friends, colleagues, and former students. This is a vivid and insightful portrait of the poet's life, written by a man who has known Auden intimately since he first met him in England in 1938. using instructions (steps *L*~1~ and *L*~2~) on ****Σ****. As the number of

oscillators increases, the agent (red triangles) is able to execute increasingly more repetitive tasks which leads to the improvement of decision quality. Improvement is quantified by the total accuracy (blue diamonds) as well as the number of accurate actions (green squares). Results are shown for mean numbers of oscillators in $L^* \sim 1 \sim 7$ and $L^* \sim 2$
